EDUCATION

KCES's Institute of Management and Research
Bachelor of Computer Applications (BCA), SGPA: 8.36/10.0

Jalgaon, Maharashtra
Expected Graduation: May 2027

EXPERIENCE

Freelance Web Developer

Remote

Self-Employed

Jan 2026 – Present

- Designed and developed responsive websites for clients using HTML, CSS, JavaScript, and React.js
- Utilized AI-assisted vibe coding workflows (Cursor AI, GitHub Copilot) to accelerate development and reduce delivery time
- Collaborated directly with clients to gather requirements, iterate on designs, and deliver projects on deadline
- Managed full project lifecycle from requirement gathering to deployment using Git and GitHub

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript

Web Technologies: HTML, CSS, React, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman, Vercel, Render, Supabase

Frameworks & Libraries: Angular, Bootstrap, TailwindCSS

Vibe Coding Tools: Antigravity, Windsurf, Cursor AI, GitHub Copilot, Claude AI, ChatGPT, Bolt.new, v0.dev, lovable.dev

Vibe Coding Practices: AI-assisted development, Prompt-driven programming, Rapid prototyping with LLMs, AI pair programming, Zero-to-app workflows

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming

Creative Skills: Video editing, Graphics Designing, 3d modeling

PROJECTS

ATM Simulation | *Python, OOPs, JSON*

Oct 2025

- Developed a console-based ATM Simulation System using Python, replicating real-world banking operations.
- Implemented secure user authentication with account number and PIN validation, including login attempt limits.
- Designed and utilized Object-Oriented Programming (OOP) concepts such as classes, objects, and encapsulation.
- Optimized code structure for readability, scalability, and modular design.

Appointment Management System | *Node.js, express.js, MongoDB*

Jan 2026

- Developed a full-stack Appointment Booking System to streamline scheduling between users and service providers.
- Built secure user authentication and authorization features for both customers and admins.
- Implemented RESTful APIs to handle appointment management, user data, and notifications.
- Improved system performance by optimizing API calls and database queries.

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming: Practice programming problems on platforms such as HackerRank, CodeChef, and LeetCode

Certifications: Data Structures and Algorithms (Simplilearn), Python Programming Masterclass (Udemy), Web Development Bootcamp (Udemy)

Academic: Represented college in inter-college sports competitions; played as a core team member in college sports teams

EXTRACURRICULAR ACTIVITIES

Technical Activities: Experimented with 3D modeling in Blender to understand design and spatial structure

Volunteer Work: Organizing college-level sports tournaments, assisting with event coordination and logistics
