MODULES 01 - 03

BUILD THE FOUNDATION

FROM CODE TO DATA INSIGHTS

Start your AI/ML journey with Python, strengthen your mathematical foundation and learn to analyze and visualize data like a professional.

MODULE

01

Python for AI/ML

- Python Fundamentals & Programming
- Functions, OOP & File Handling
- NumPy & Pandas
- Data Handling & Jupyter/Google Colab

CODE > PRACTICE > PROGRESS

MODULE

02

Mathematics & Statistics for ML

- Linear Algebra Fundamentals
- Probability & Statistics
- Descriptive & Inferential Statistics
- Data Preprocessing & Mathematical Foundations

UNDERSTAND > ANALYZE > APPLY

MODULE

03

Data Analysis & Visualization

- Data Cleaning & Preprocessing
- Exploratory Data Analysis
- Matplotlib & Seaborn
- Data Visualization & Insights

CLEAN > EXPLORE > VISUALIZE

IMPACT

MODULES 07 - 09

ADVANCE YOUR AI SKILLS

DEEPER KNOWLEDGE. BIGGER POSSIBILITIES.

Explore advanced AI concepts including model evaluation, deep learning and natural language processing to build smarter real-world applications.

MODULE

07

Model Evaluation & Optimization

- Classification & Regression Metrics
- Confusion Matrix, Precision & Recall
- Cross-Validation & Hyperparameter Tuning
- Feature Selection & Model Optimization

Confusion Matrix

Model Metrics

EVALUATE > OPTIMIZE > IMPROVE

MODULE

08

Deep Learning

- Neural Networks Fundamentals
- ANN & Backpropagation
- CNN for Image Processing
- TensorFlow/Keras & Model Training

BUILD > TRAIN > SOLVE

MODULE

09

Natural Language Processing

- NLP Fundamentals & Text Processing
- Tokenization, Stop Words & Embeddings
- Sentiment Analysis & Text Classification
- Basic NLP Applications

The course was absolutely **amazing!**

MODULES 04 - 06

BUILD MACHINE LEARNING MODELS

LEARN · EXPERIMENT · SOLVE REAL PROBLEMS

Understand core machine learning concepts and learn how to build, train and evaluate models using real-world datasets.

MODULE

04

Machine Learning Fundamentals

- AI, ML & Deep Learning Concepts
- Supervised & Unsupervised Learning
- Training, Testing & Validation
- Bias, Variance & Overfitting

DATA > TRAIN > PREDICT

MODULE

05

Supervised Learning

- Linear & Polynomial Regression
- Logistic Regression
- Decision Trees & Random Forest
- KNN & SVM

LEARN PATTERNS > MAKE PREDICTIONS

MODULE

06

Unsupervised Learning

- Clustering Concepts
- K-Means & Hierarchical Clustering
- Dimensionality Reduction
- PCA & Anomaly Detection

FIND STRUCTURE > DISCOVER INSIGHTS

MODULES 10 - 12

BUILD MODERN AI

IDEAS TO APPLICATIONS TO IMPACT

Explore Generative AI, learn to deploy models and work on a real-world project to build complete AI-powered solutions.

MODULE

10

Generative AI & Modern AI

- Generative AI Fundamentals
- LLMs & Prompt Engineering
- AI APIs & AI Application Development
- Responsible & Ethical AI

Build
with AI

Turn ideas into reality...

PROMPT > BUILD > INNOVATE

MODULE

11

AI Deployment & Applications

- Model Saving & Deployment
- Flask/FastAPI for AI Applications
- Streamlit & AI Dashboards
- Cloud/Edge AI Fundamentals

DEPLOY > INTEGRATE > SCALE

MODULE

12

Live AI/ML Project

- Real-World Dataset & Problem Definition
- Data Processing & Model Development
- Model Evaluation & Deployment
- Final AI/ML Project Presentation

Real Problems.
Real Solutions.

TERMS & CONDITIONS

CLEAR GUIDELINES A BRIGHTER JOURNEY

FAIR . TRANSPARENT . FOR YOUR GROWTH

Our terms and conditions are designed to ensure a smooth, structured and valuable learning experience for every student.

01

Admission

Admission is confirmed only after successful registration and fee payment.

02

Batch Schedule

Batch timings will be informed in advance. The institute reserves the right to reschedule batches if required.

03

Fees

Course fees must be paid as per the agreed schedule. Fees once paid are non-refundable and non-transferable.

04

Attendance

Regular attendance is expected for the best learning experience. Students should maintain minimum 75% attendance.

05

Learning Resources

Study material, tools and resources are provided for educational purposes only and must not be shared or distributed outside the program.

06

Projects & Internship

The 3-month internship is subject to completion of the training phase and satisfactory performance during the course.

07

Certification

A Central Government Certificate will be provided on successful completion of the course, subject to meeting all program requirements.

08

Conduct

Students are expected to maintain a respectful and disciplined environment. Any misconduct may lead to termination from the program without a refund.

09

Changes

Simplesphere Technologies reserves the right to make changes in the curriculum, tools or schedule if required, to ensure the best learning experience.
