

INTERNET OF THINGS

BUILD A SMARTER TOMORROW

A hands-on learning program to master electronics, embedded systems, IoT development, connectivity, cloud platforms and real-world IoT applications.

scan
to
register

6-MONTH PRACTICAL PROGRAM

3 MONTHS TRAINING + 3 MONTHS INTERNSHIP

BUILD

Electronics, sensors
and embedded systems

PROGRAM

Arduino, C/C++
and Python

CONNECT

Wi-Fi, Bluetooth
and IoT protocols

DEPLOY

Cloud, dashboards
and real-world IoT applications

3 MONTHS TRAINING

Learn | Practice | Build

3 MONTHS INTERNSHIP

Work | Apply | Experience

CENTRAL GOVERNMENT CERTIFICATE

Get a recognized government certificate upon successful
completion of the course.

FREE COUNSELLING SESSION

Simplesphere technologies,
Opp. Of Lenskart, Ring Road, Jalgaon

BUILD THE FOUNDATION

CORE CONCEPTS TO HANDS-ON DEVELOPMENT

Start with the fundamentals and gradually build your skills in electronics, programming and embedded systems.

MODULE 01

IoT FUNDAMENTALS

- IoT Concepts & Architecture
- IoT Components & Applications
- Sensors, Actuators & Controllers
- IoT Ecosystem & Use Cases

MODULE 02

ELECTRONICS FOR IoT

- Basic Electronics & Circuit Fundamentals
- Digital & Analog Signals
- Sensors & Actuators Interfacing
- Breadboard, Components & Circuit Design

MODULE 03

ARDUINO PROGRAMMING

- Arduino Architecture & IDE
- C/C++ Programming Fundamentals
- Digital & Analog I/O
- Sensors, Actuators & Serial Communication

MODULE 04

MICROCONTROLLERS & EMBEDDED SYSTEMS

- Microcontrollers & Embedded Systems
- GPIO, PWM, ADC & Interrupts
- Embedded Programming
- Hardware-Software Interfacing

NEXT UP

In the next section, you will learn about ESP32/NodeMCU, Raspberry Pi, IoT networking, cloud platforms and real-world IoT applications.

BUILDING BLOCKS
FOR A SMARTER
TOMORROW

FREE COUNSELLING SESSION

Simplesphere technologies,
Opp. Of Lenskart, Ring Road, Jalgaon

CONNECT EVERYTHING

FROM DEVICES TO THE CLOUD

Learn wireless connectivity, IoT protocols, single-board computers and cloud platforms to make your devices communicate, store data and create real-world applications.

MODULE 05

ESP32 / NODEMCU & WIRELESS IoT

- ESP32/NodeMCU Architecture
- Wi-Fi & Bluetooth Connectivity
- Sensor Data Acquisition
- Wireless IoT Applications

MODULE 06

RASPBERRY PI & PYTHON

- Raspberry Pi Setup & Linux
- Python Programming for IoT
- GPIO & Hardware Interfacing
- Raspberry Pi IoT Applications

MODULE 07

IoT NETWORKING & PROTOCOLS

- TCP/IP & IoT Networking
- MQTT & HTTP/HTTPS
- CoAP & Communication Models
- Device-to-Device & Device-to-Cloud Communication

MODULE 08

IoT CLOUD & DATA MANAGEMENT

- IoT Cloud Architecture
- Device Registration & Management
- Cloud Data Storage & Processing
- IoT Dashboards & Visualization

NEXT UP

In the next section, you will learn about IoT application development, security, edge computing and work on a live IoT project.

MORE SKILLS
BIGGER
POSSIBILITIES

FREE COUNSELLING SESSION

Simplesphere technologies,
Opp. Of Lenskart, Ring Road, Jalgaon

+91 78230 51181 | +91 9322051181

www.simplesphere.in

BUILD REAL IoT SYSTEMS

FROM APPLICATIONS TO A LIVE PROJECT

Develop IoT applications, secure connected systems, explore edge computing and complete a live IoT project.

MODULE 09

IoT APPLICATION DEVELOPMENT

- Real-Time Sensor Monitoring
- Web/Mobile IoT Interfaces
- APIs & Database Integration
- Remote Device Control

MODULE 10

IoT SECURITY

- IoT Security Fundamentals
- Device & Network Security
- Authentication & Encryption
- IoT Vulnerability & Security Testing

MODULE 11

ADVANCED IoT & EDGE COMPUTING

- Edge & Fog Computing
- IoT Data Analytics
- AI/ML for IoT
- Smart Home, Agriculture & Industrial IoT

MODULE 12

FINAL BUILD

LIVE IoT PROJECT

- IoT Problem Identification & System Design
- Hardware, Sensors & Connectivity Integration
- Cloud Dashboard & Real-Time Monitoring
- Final IoT Product Demonstration

WHAT NEXT?

You will complete a live IoT project by applying everything you learn, from hardware to cloud, and build a real-world solution.

IDEAS
INTO WORKING
SOLUTIONS

FREE COUNSELLING SESSION

REAL SKILLS. REAL OPPORTUNITIES.

TURN IDEAS INTO A SMARTER TOMORROW.

IoT is transforming industries and creating new opportunities across the world. Build in-demand skills and prepare for a future full of possibilities.

CAREER OPPORTUNITIES

IoT DEVELOPER

Build and develop IoT applications and connected systems.

EMBEDDED SYSTEMS ENGINEER

Work with microcontrollers, hardware and embedded programming.

IoT SOLUTIONS ENGINEER

Design and implement end-to-end IoT solutions using cloud platforms.

DATA & IoT ANALYST

Work with IoT data, dashboards and real-time analytics.

IoT SECURITY SPECIALIST

Secure connected devices and IoT networks.

RESEARCH & INNOVATION

Explore new technologies like AI, edge computing and smart systems.

INDUSTRIES USING IOT

MANUFACTURING

Smart factories and automation

AGRICULTURE

Precision farming and monitoring

SMART HOMES

Connected and automated living

HEALTHCARE

Remote monitoring and better care

SMART CITIES

Intelligent and sustainable infrastructure

AUTOMOTIVE

Connected and self-driving vehicles

BE A PART OF THE CHANGE

Gain the skills to work on real-world IoT challenges and contribute to a more connected, efficient and smarter world.

TERMS & CONDITIONS

A COMMITMENT TO A BETTER LEARNING JOURNEY.

01 ELIGIBILITY

Our courses are open to students, professionals and enthusiasts with a genuine interest in learning. No prior experience is required for most courses, unless specified.

02 ADMISSION & PAYMENT

- Seats are confirmed only after full or initial payment (as applicable).
- Payments can be made via cash, UPI or bank transfer.
- Fees once paid are non-transferable.

03 BATCH SCHEDULE

- Classes will be conducted as per the schedule shared at the time of admission.
- Timings: 4:00 PM – 6:00 PM (Monday to Friday)
- The institute reserves the right to modify schedules if required, and students will be informed in advance.

04 ATTENDANCE

- Regular attendance is highly recommended for better learning outcomes.
- A minimum of 75% attendance is suggested to be eligible for certification.
- Missed classes will not be repeated, but recorded/material (if available) may be provided.

05 CERTIFICATION

A certificate of completion will be provided only to students who complete the course and meet the minimum attendance requirement.

06 REFUND POLICY

- Fees are non-refundable once the batch has started.
- In case of batch cancellation from our side, a full refund will be provided.
- Refund requests (if applicable) must be made in writing before the batch start date.

07 CODE OF CONDUCT

- Maintain a respectful and professional behaviour at all times.
- Any form of misconduct, harassment or disruption may result in removal from the course without a refund.
- Use of course material for personal learning only. Sharing or redistribution is not allowed.

08 CHANGES TO TERMS

Simplesphere Technologies reserves the right to update or modify these terms and conditions at any time. Any changes will be communicated to enrolled students.

QUESTIONS?

We're here to help. Reach out to us for any queries regarding our courses, admission or policies.
